

TITLE: COLLEGE AND UNIVERSITY TRANSFER REQUIREMENTS

Every American college and university has certain general education requirements of its own. The Vice President of Student Services maintain records of these requirements and can counsel the student preparing for transfer. Information can also be obtained from faculty advisors.

In general, however, any student who receives an Associate in Arts or an Associate in Science Degree from Gogebic Community College is not required to pursue further General Education requirements at most four-year colleges and universities in Michigan.

Gogebic Community College participates in the Michigan Transfer Student Agreement and will identify such on student transcripts for those completing the requirements.
